

### Overview

In this first year, we bring all students up to speed with basic French language, focusing on basic reading, writing, speaking and listening. We cover topics based on introducing ourselves, our personalities, and what we like and dislike.

# Year 7 French

### Term 3

In this summer term, we focus mainly on personalities – what am I like as a person? How would I describe my personality? Towards the end of the term, we will touch on French music and film and giving reasons and opinions based on our musical likes and dislikes.

### Term 1

This term we focus on introducing ourselves; what do we like and dislike? What do we look like? We also spend some time looking at school and vocabulary relating to equipment students bring into school, allowing students to learn classroom vocabulary that will be used throughout their school life at Eskdale.

### Term 2

In this second term, we learn how to describe our families, including our pets! We also spend some time focusing on where we live and the type of house we live in as well as weather.
