

Overview

This year continues to build on the foundation we lay in Year 7. We focus on key skills such as writing in more depth, but also ensure students are using previous knowledge to give fully justified opinions and answers throughout Year 8.

Year 8 French

Term 3

In this last term, we learn how to talk about our town – where do we live? How do I get to the shops? This focus on directions and places in town allows for students to feel confident speaking about where they live.

Term 1

We begin the year by focusing on school subjects and the school day – what is your favourite subject and why? When do you have French? We spend some time revising opinions and ensuring we can give justified answers to questions in French. We also learn how to recognise timings in French.

Term 2

This term we focus on the skill of writing in a zombie apocalypse survival guide written completely in French. We practice opinion phrases, how to justify our answers and practice a high level of writing in the target language.
