

Overview

This year continues to build on the foundation we lay in Year 7. We focus on key skills such as writing in more depth, but also ensure students are using previous knowledge to give fully justified opinions and answers throughout Year 8.

Year 8

German

Term 1

We start by looking at things you do, and then how to talk about things you did in the past. You will be able to describe a crime scene using your newly acquired German.

Term 2

This term we take you into the future – using the German language to describe future events and journeys.

Term 3

In this last term, we learn how to talk about your body, illnesses and injuries. You will write a short story based on "Die kleine Raupe Nimmersatt"
