

Dance

Year 11 Dance students need to work on the following for their exams.

1. Link their written work to their choreography
2. Discuss the choreographers that have influenced them
3. Discuss the theme had how it has linked to their choreography
4. Discuss what skills and techniques they have used and what they need to continue to develop
5. Evaluate their performance and choreography in detail and suggest ways it could be improved

BTec students can take notes in with them when they do their write ups so all of this will be in their notes too.
