

**Overview**

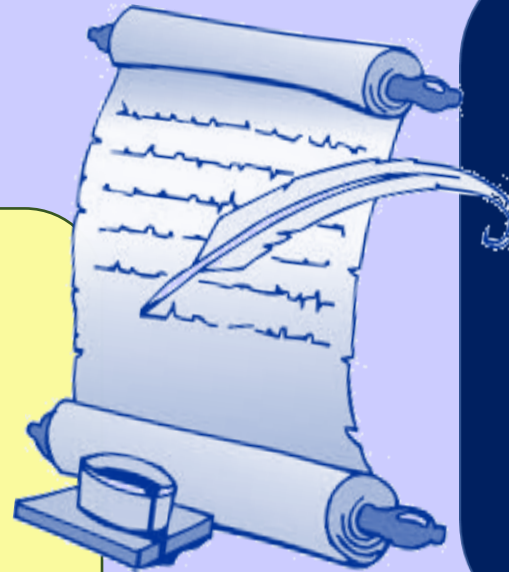

Throughout year 9, move our focus to the 20th century. We compare life in Edwardian society with Industrial Britain, and then look at the impact of two World Wars on our nation. We also look at the changing nature of warfare since WWII.

Term 1

We start with putting the start of the century into context with an overview of Edwardian Britain. Then we move on to look at the causes and impact of the First World War, both on Britain and Germany. You will analyse sources on the Treaty of Versailles and make a judgement about how fair it was

Year 9**History****Term 3**

So for the summer term, our focus changes to look at the ideas of communism and capitalism and the development of the Cold War. You will also start to look at the shift in the nature of warfare since WWII, looking at Cuba and Vietnam

**Term 2**

This term we look at the ideas of democracy and dictatorships. What was America like in the Roaring Twenties? Was the American dream a reality for everyone? We will also look at the rise of Adolf Hitler and how he gained the support of the German people.
